PROFILE

Information Systems graduate passionate about frontend development. Constant desire to learn and pursue challenges through programming and logical problem solving.

PROJECTS

REST Countries

- React application consuming the *restcountries.eu* API to serve data for 250 countries
- Created custom details pages for each country with React Router
- Incorporated pagination to improve page load time & performance
- Implemented search and filtering functionality to facilitate quick and easy navigation

Photosnap

- Framework-free multi-page site with HTML & Sass
- Integrated standard and pixel-specific breakpoints to promote a fully responsive design
- Organized stylesheets under a 7-1 Sass architecture

EMPLOYMENT HISTORY

Deli Clerk, Pavilions   San Diego
Aug 2018 – Aug 2019

- Utilized bilingual speaking abilities to help onboard and communicate with non-native English speakers
- Organized and prioritized work to complete tasks in a timely, efficient manner

EDUCATION

San Diego State University   3.6 GPA
May 2021

- Bachelor of Science in Information Systems, Cum Laude
